

Noodle Photography

Noodle Photography lessons The Fundamentals

Noodle Photography runs a six hour, one-to-one course split in to 3x2 hours which you can do at your convenience (we would suggest once a week). We can run the course in the mornings, afternoons or weekends. We can also offer an 'executive' package to fit in with your work hours (just ask for more details).

On this course you will learn about:

- Lens and focus operation
- Camera handling
- Controlling image exposure
- Aperture & depth-of-field
- Shutter speeds
- ISO
- Basic composition
- Caring for your camera

This course is for you if you:

- Have no prior photographic knowledge
- Have a new digital camera you want to get to grips with
- Need to brush up after some time off from photography

The sessions are run on location, going to places such as Marina Bay, Chinatown and Little India.

We will start from basics and move at your speed to cover the fundamental manual controls to get you more confident and taking better pictures.

The course price is \$360 for the 6 hours.

Course requirements; -

This course is open to all DSLR, CSC, Mirrorless and Advanced Compact / Bridge camera owners – so basically, if your camera has Aperture (A, Av), Shutter (S, Tv) or Manual (M) mode we are good to go.

Courses must be completed within 3 months of booking
