

Our Family Photography Prices

Noodle Photography specialises in capturing families in natural light. We work with you to select a location which reflects your desired style, from urban backdrops to natural landscapes. We can also visit you at your home for a more personal shoot.

The shoot itself costs a one off price of \$200 (payable in advance to secure the date).

The proofs will be made available to you online. You can then make a choice of as many images as you like. They will be delivered electronically and will be high resolution, suitable for large format printing.

Noodle clients only pay for the finished images of their choice, there is no obligation to purchase packages.
